

CENTRAL ENGINEERING SERVICES (PVT) LTD.

Fully owned subsidiary of Central Engineering Consultancy Bureau
MINISTRY OF IRRIGATION

(We are ISO 9001, ISO 14001 and ISO 45001 Certified, CIDA CS2 Registered Company)

**“One-Stop-Shop”
for all types of
Engineering Construction
Services,
Project Management
Consultancy,
Construction Supervision,
Environment & Climate
Consultancy.....**

The leading engineering and construction business enterprise, marking a quarter century of dynamic presence in the Sri Lankan Construction Industry. Starting as turnkey engineering procurement and construction service provider in 1995, we rebranded as the Central Engineering Services (Pvt) Ltd in 2011, enlarging our core engineering business portfolios to optimize on the emerging engineering business openings in the country. Bolstered by our strategic partner synergies of the Central Engineering Consultancy Bureau (CECB), the premier engineering consultancy competency in the country, we empower our nations aspirations in designing, constructing sustainable infrastructures that fuels socioeconomic advancement, environmental sustainable and wellbeing of our nation.

We are a state-owned, commercially successful, but a socially conscious corporate citizen built on client and stakeholder trust earned over the years.

About Us

Central Engineering Services (Pvt) Ltd. (CESL) is a fully owned subsidiary of the Central Engineering Consultancy Bureau (CECB) acting as its construction arm, incorporated as a Limited Liability Company in December 2003, under the Companies Act No. 17 of 1982 and re-registered in November 2009 under the Companies Act No. 7 of 2007.

The leading engineering and construction business enterprise, marking a quarter century of dynamic presence in the Sri Lankan Construction Industry. Starting as turnkey engineering procurement and construction service provider in 1995, we rebranded as the Central Engineering Services (Pvt) Ltd in 2011, enlarging our core engineering business portfolios to optimize on the emerging engineering business openings in the country. Bolstered by our strategic partner synergies of the Central Engineering Consultancy Bureau (CECB), the premier engineering consultancy competency in the country, we empower our nations aspirations in designing, constructing sustainable infrastructures that fuels socioeconomic advancement and wellbeing of our nation.

We are a state-owned, commercially successful, but a socially conscious corporate citizen built on client and stakeholder trust earned over the years.

COE = Chief Operation Engineer's Sections
SOE = Senior Operation Engineer Units

VISION

To be the unique model for the construction industry by prioritizing the Environmental Sustainability.

MISSION

Acquiring excellence in construction industry with new technologies and process innovation with a highly motivated, trained staff whose contribution is adequately recognized.

Our Journey

Central Engineering Services Private Limited - CESL as we are the professional **“One-Stop-Shop”** for all types of engineering construction services in Sri Lanka. At this point of time in our history, we look back with pride and joy at our journey.

Human Resource Strength

Central Engineering Services (Pvt) Ltd. has been handling large scale construction projects across the island with a team of highly skilled, innovative and experienced engineers who have been involved with a multitude of engineering projects. The technical staff strength of CESL is currently over 750 and this includes more than hundreds of Engineers, Quantity Surveyors, Environmental & Social Experts, Architect Designers and Engineer Persons.

Mega Motive Gears

Our Machinery Fleet stands as a robust backbone to our operations. With a diverse and state-of-the-art fleet, we are equipped to handle a wide spectrum of construction projects. From heavy-duty excavators and bulldozers to advanced cranes, Asphalt batching plants, Crusher plants, ready-mixed concrete plants and over 150 specialized equipment's, our machinery is not just powerful but tailored for efficiency. This strength in diversity ensures that we meet the unique demands of each project, providing us with a competitive edge in delivering timely, precise, and high-quality construction services. Our commitment to investing in cutting-edge technology and maintaining a well-maintained fleet underscores our dedication to exceeding client expectations and achieving excellence in every endeavor.

Certifications & Accreditations

Certifications

- **Quality Management System (QMS)**
ISO 9001:2015 Certified
- **Environment Management System (EMS)**
ISO 14001:2015 Certified
- **Occupational Health & Safety Management System (OHSAS)**
ISO 45001:2018 Certified

Accreditations

- **CONSTRUCTION INDUSTRY DEVELOPMENT AUTHORITY (CIDA)**
Accredited Contractor for Procurement of Projects in Major Civil Engineering Disciplines
- **NATIONAL CONTRACTOR'S ASSOCIATION SRI LANKA (NCASL)**
Accredited as a Major and Specialist Contractor
- **SRI LANKA ACCREDITATION BOARD (SLAB)**
Geotechnical and Laboratory Services - ISO/IEC 17025:2005 certified

Our Expertise

- Buildings
- Roads
- Bridges and Culverts
- Irrigation Structures
- Sewage & Water Treatment Plants
- Construction in Environmental Sensitive areas
- Environment & Climate
- Hydropower & Renewable Energy
- Geo-Technical Engineering
- Interior Design
- Project Management

BUILDINGS

CIDA GRADE - CS2

CESL has been in the forefront of the Design and Construction of Buildings on Design and Build basis. Construction work undertaken so far, ranges from Buildings (multi-storied buildings, factory type, iconic, etc.) to entire township developments throughout the island.

In addition, CESL has also undertaken the rehabilitation and refurbishment of buildings of an archaeologically important nature.

CESL largely depends on its In-house expertise. However, in special cases CESL engages relevant personnel such as reputed Architects to strengthen its project teams, and to handle specific requirements of a project.

CESL engaged to construct various functional buildings, such as;

- Hospitals
- Commercial Buildings
- Administration and Office Buildings
- Hostels
- Apartments
- Public Buildings
- Universities Infrastructure
- Prison Complexes
- Court Complexes
- Sports Complexes
- Recreational Buildings

ROADS

CESL, has many years of experience in planning, designing and construction of Roads in Sri Lanka.

The firm's rich experience includes;

- Construction of Trunk Roads/ Arterial Roads/ Elevated Roads/ etc., and widening
- Rehabilitation, upgrading and resurfacing of existing roads
- Construction of Guard Rails, Road Furniture, etc.

BRIDGES & CULVERTS

CESL has wide experience in the design and construction of bridges and culverts in the country.

Over the years CESL has gained a high reputation in the design, construction and installation of;

- Concrete and Steel Flyovers/ Concrete, Steel and Composite Bridges/ Pedestrian Bridges/ Overpass Bridges
- Rehabilitation and strengthening of existing bridges
- Drainage structures such as culverts, lined roadside drains and lead way drains

IRRIGATION STRUCTURES

The engineering expertise of the CESL in the field of Irrigation extends to the designing, planning, execution and commissioning of large scale Irrigation projects, including the following;

- Rehabilitation & construction of reservoirs
- Canals
- Anicuts
- Earthen dams
- Regulation structures
- Weirs
- Hydraulic structures
- Augmentation

SEWAGE & WATER TREATMENT PLANTS

CESL engaged to Constructing, Augmentation, Rehabilitation and Improvement of Sewage & Water Treatment Plants, such as;

- Zoo
- Hostels
- Hospitals
- Office
- Hatcheries

CONSTRUCTION IN ENVIRONMENTAL SENSITIVE AREAS

In areas of great natural beauty and sensitive natural environments, special care has to be taken in the construction of any required structures and this often poses a challenge for engineers and developers. But with the right technology, forethought and consideration, it can be done.

- Undertaking constructions within world heritage Sites
- Constructions within wild life sanctuary limits
- Developing Zoological Garden & Safari Parks
- Bio Diversity Parks
- Nature Trails & Parks
- Wildlife Institutes
- Forestry Institutes

HYDROPOWER & RENEWABLE ENERGY

We are a professional hydropower & renewable energy services and solutions provider addressing electricity and energy challenges by improving access to and promoting adoption of clean and energy efficient technologies.

This is being achieved through the efforts of our knowledge driven team and network of internationally qualified experts within the fields of renewable energy technologies sustainable development and engineering.

We are dedicated to creating sustainable solutions and enriching lives by reducing energy poverty, providing long lasting and consistent solutions for households, businesses and communities by using the renewable energy sources of Hydro power, solar and wind.

GEO-TECHNICAL ENGINEERING

We are experts in technology driven solutions for soil reinforcement and ground stabilization. Our Strength is the highly experienced staff of geotechnical engineers, geologist and technicians. We combine our experience and technical resources to produce cost-effective geotechnical and engineering solutions. We provide highest quality services and consultation to our customers with suitable systems and solutions.

- Geotechnical exploration and investigation
- Land slide mitigation
- Foundation and foundation soil improvement
- Slope Stabilization
- Slope and rock fall protection
- Geophysical Surveying

INTERIOR DESIGN

Specialized in providing turnkey design solutions for high end residential luxury homes and commercial projects.

We have achieved success with our ability to create luxurious, sophisticated interiors of timeless quality, extraordinary design, and functionality, infused with client's personal style and desires. Most importantly we respect our client's budget and established timeline.

- Design Consultation
- Space Planning
- Lighting Designs
- Furniture Layout

Buildings - Completed Projects

DISTRICT GENERAL HOSPITAL AT HAMBANTOTA

- **Client**
Ministry of Health, Nutrition & Indigenous Medicine, Sri Lanka
- **Location**
Hambantota
- **Project Status**
Completed
- **Completed Year**
2016
- **Services**
Construction
Construction Management
- **Project Cost**
USD \$ 16 Mn | LKR 1,913.75 Mn

The work consists of reinforced and precast concrete framed structure in a Ten Storied configuration covering an approximate floor area of 30,000.00 m². The 850 bed hospital will have 08 operating theaters, ETU, OPD, Clinics, and all ancillary facilities. The building complex shall have residential facilities and external works that will not form part of this contract.

The mechanical installation including air conditioning Air conditioning work, Plumbing and piped gas network will be treated as Nominated Sub-contracts and the main contractor should provide for attendance fee in their quote for the facilitation of these works.

GREEN Certified Building - Platinum Award

SPECIALIZED PEDIATRIC WARD COMPLEX AT DISTRICT GENERAL HOSPITAL, AMPARA

- **Client**
Ministry of Health, Nutrition & Indigenous Medicine, Sri Lanka
- **Location**
District General Hospital, Ampara
- **Project Status**
Completed
- **Completed Year**
2020
- **Services**
Pre-design phase
Schematic design phase
Design development phase
Construction phase
- **Project Cost**
USD \$ 7.56 Mn | LKR 1,132.96 Mn

The project is Eight Storied building (80,000.00 sq.ft) consist of treatment area, resuscitation, X-ray Room, CT Room, Doctor's Rest Room, Nurses Rest Room, Minor Staff's Rest Room, Operation Theatre, Recovery Area, Male, Female, Staff and Disable Toilets, Water Tank, Water Sump, Rain Water Harvesting, Hot Water System, Automatic Drip Irrigation System and maintenance with other building services such as Air cooled chiller Air conditioning system, ICT systems, Escalator & Dumbwaiter system. Fire Protection and Detection System, Building Management System, LED Lighting Systems, Piped Medical Gas System Standby Generator System, Transformer, Solar Panel Installation, Children Park, Swimming Pool etc.

This is a Design & Build Contract and this structure was awarded a **PLATINUM Rated Green Building Certification** under the **GREEN Rating System** for Built Environment by the Green Building Council of Sri Lanka in December 2020.

THEATRE AND WARD COMPLEX AT NORTH COLOMBO TEACHING HOSPITAL, RAGAMA

- **Client**
Ministry of Health, Nutrition & Indigenous Medicine, Sri Lanka
- **Location**
Ragama
- **Project Status**
Completed
- **Completed Year**
2017
- **Services**
Construction, Construction Management
- **Project Cost**
USD \$ 7.04 Mn | LKR 949.86 Mn

The project is Eight Storied building covering an approximate floor area of 12,000.00 m² and consist of Accident Service Unit, Theatre Complex, ICU & Wards (322 Patient Beds, 14 ICU Beds, 06 Operating Theatres, 01 X-ray Room).

MATERNITY WARD COMPLEX AT TEACHING HOSPITAL, KURUNEGALA

- **Client**
Ministry of Health, Nutrition & Indigenous Medicine, Sri Lanka
- **Location**
Kurunegala
- **Project Status**
Completed
- **Completed Year**
2021
- **Services**
Preparation of schematic, conceptual and detailed architectural drawings
Preparation of detailed structural, water supply & drainage and electro-mechanical drawings
Project planning and construction management
Carryout Construction Works
- **Project Cost**
USD \$ 6.15 Mn | LKR 799.55 Mn

The project is Seven Storied building covering an approximate floor area of 15,750.00 m².

Accident and Emergency Treatment Unit at Teaching Hospital, Batticaloa

GREEN Certified Building - GOLD Award

ACCIDENT AND EMERGENCY TREATMENT UNIT BUILDINGS

Accidents and emergencies are acute situations which pose an immediate threat to a person's life, thus, necessitating prompt attention and appropriate care. The Ministry of Health has identified further strengthening of accident and emergency services as a priority service and necessary funds were allocated to develop a guideline and to design and construct the same in selected hospitals. CECB was given the task to prepare type plans based on the level of care and to implement the building programme. And also CESL has been assigned to carry out their construction work.

Accident & Emergency Treatment Units that CESL have constructed in hospitals across the island-wide are mentioned below.

Accident and Emergency Treatment Unit at Base Hospital, Kalmunai

Accident and Emergency Treatment Unit at Teaching Hospital, Jaffna

- **Accident and Emergency Treatment Unit at Teaching Hospital, Batticaloa - 2018**

This was awarded a **GOLD Rating Certification** under the **GREEN Rating System** for Built Environment by the Green Building Council of Sri Lanka in 2018.

Project Cost:- USD 5.69 Mn | LKR 767.85 Mn

- **Accident and Emergency Treatment Unit at Base Hospital, Kalmunai, North - 2019**

Project Cost:- USD 2.75 Mn | LKR 371.14 Mn

- **Accident and Emergency Treatment Unit at Teaching Hospital, Jaffna - 2019**

Project Cost:- USD 3.88 Mn | LKR 525.47 Mn

- **Accident and Emergency Treatment Unit at General Hospital, Kalutara - 2019**

Project Cost:- USD 4.88 Mn | LKR 706.50 Mn

- **Accident and Emergency Treatment Unit at General Hospital, Polonnaruwa - 2020**

Project Cost:- USD 2.83 Mn | LKR 382.27 Mn

Accident and Emergency Treatment Unit at General Hospital, Kalutara

Accident and Emergency Treatment Unit at General Hospital, Polonnaruwa

Its purpose was to reduce mortality and disability related to accidents and emergencies by providing an efficient & effective health care service. As a result, admissions to inpatient wards in hospitals would be reduced considerably.

<p>ACKNOWLEDGEMENT OF CONTRACT PERFORMANCE</p> <p>I am writing this letter to express our deepest appreciation for the outstanding performance exhibited by CESL as the contractor for the execution of contracts worth over Rupees 1.5 billion in Sri Lanka Forestry Institute (SLFI), Nuwara Eliya, National Wildlife Research and Training Centre (NWRTC), Girithale, and Visitor Centre, Sinharaja, Kudawa. The remarkable achievements made within a span of just 4 months are truly commendable.</p> <p>The successful completion of such a significant contract demonstrates CESL's unwavering commitment, professionalism, and dedication towards delivering high quality results within strict deadlines. Your team's exceptional skills, expertise, and collaborative approach have played a pivotal role in the overall success of the project.</p> <p>We are particularly impressed by the meticulous planning, efficient execution, and adherence to safety protocols throughout the project. The ability to manage complex tasks, solve unforeseen challenges, and maintain a high level of performance even under demanding circumstances has greatly contributed to the successful achievement of project milestones. Moreover, the excellent coordination and effective communication exhibited by CESL's team members have fostered a positive working relationship with our project and other stakeholders involved in the project. The team's professionalism and commitment to delivering beyond expectations have set a benchmark for future collaborations in the industry.</p> <p>On behalf of the ESCAMP, I extend our heartfelt gratitude to each member of the CESL's team who has contributed to the successful completion of this project. Your hard work, expertise and dedication have significantly contributed to the development and progress of SLFI, Nuwara Eliya, NWRTC, Girithale and visitor center, Sinharaja.</p> <p>We look forward to the possibility of future collaborations and the opportunity to witness CESL's remarkable capabilities in action once again. Your commitment to excellence is truly inspiring and is a testament to your organization's reputation as a reliable and proficient contractor.</p> <p>Once again, thank you for your exceptional performance and we wish CESL continued success in your future endeavors.</p>		
<p>Yours sincerely,</p>  <p>Anura Sathurusinghe Project Director Ecosystem Conservation and Management Project</p>
